

Hello, I'm Lena,

Trainee Front-end/HTML coder

I seek an opportunity to grow professionally as a programmer. I am persistent and hardworking, focused on results. I really like to see the result of my work and I want to get into a team of like-minded people, create cool applications together, develop, and finally obtain commercial experience.

Frontend: HTML5/CSS3(SASS(SCSS)), JavaScript (basic).

Graphic Tools: Figma, Photoshop.

Version Control system: Git, Github.

Gulp(basic).

BEM methodology.

About Me

I have no commercial experience as a Front-End developer, but I believe that with determination and hard work, anything is possible. During my four-year tenure as an IT recruiter in outsourcing and outstaffing companies, I conducted numerous interviews and witnessed candidates without technical education or prior experience securing exciting projects. If they could do it, I am confident that I can too! I completed the Junior Front-End Developer courses with honors at Main Academy from March 2021 to October 2021. The program covered HTML/CSS, JavaScript, jQuery, Bootstrap, and Photoshop in a comprehensive 140-hour curriculum. After completing the courses, I continued to study Front-End development independently, expanding my knowledge beyond what I learned in the program. I have applied this knowledge in practical projects and achieved tangible results. I am dedicated to continuously improving my skills and knowledge in the field. I would greatly appreciate the opportunity to complete a test task to demonstrate my abilities. I am seeking a Trainee/Junior position where I can contribute my current skills while being open to learning anything necessary for the job.

EDUCATION and CERTIFICATES

Kherson State Agricultural University (Management) 2010-2014

Main Academy (Junior Front-end Developer) 2021-2021
